MESSAGE FROM THE CHAIRMAN

RAHMA Islamic Relief (RIR) completed the 11th year of its successive work in the ground. I feel immense pleasure to share that during this period, 858,430 people directly benefited from the RAHMA-Programs in 21 districts of all provinces including, Azad Kashmir. In the current year, total direct beneficiaries from six thematic areas remained as 243,180 (persons).

During the COVID-19 crises, RIR was there for timely help. We launched a very successful emergency food campaign for the most affected daily wagers, the needy and women & orphan headed households. We distributed food packages among two thousand such families successfully.

The contribution of Rahma Islamic Relief during the first and second outbreak of COVID-19 recognized widely. Ministry of Foreign Affairs, Government of Pakistan, awarded an appreciation certificate to the founder of the organization acknowledging his role in the pandemic and overall, in the social development of Pakistan. Furthermore, during the year, the Government of Pakistan, Ministry of Economic Affairs, signed MOU with the organization for a period initially up to 19th January 2023.

I am very grateful to RIRF-Norway BoT for their continuous support. I am also thankful for Helping Humanity Denmark and all other institutional donors. My thanks are due to individual donors as well who generously kept supporting us. I am proud of my staff all they are dedicated, professional and possess team spirit. Thanks to the community volunteers as well. They have always been there to support and cooperate with our field team. I am also thankful to the officials in concerned government departments who showed cooperation wherever needed.

Sincerely,

Muhammad Saghir Qamar

INTRODUCTION

RAHMA Islamic Relief (RIR) registered on August 31, 2009 as a non-profit, non-governmental entity under the Trust Act, 1882, Government of Pakistan, GoP. (Registration No. 1629). The organization has signed MOU with Economic Affairs Division (EAD), GoP.

RIR is also awarded by certification from Pakistan Centre for Philanthropy (PCP) after meeting the quality standards in the areas of internal governance, financial management and programme delivery.

The organization is also member of different global forums as Stop TB Partnership and Union of NGOs of the Islamic World (UNIW). Furthermore, its healthcare programme in Punjab is registered from Punjab Healthcare Commission, GoP. (Registration No. R-32277)

RIR is a national-level NGO in Pakistan, inspired by the Islamic charity principles and is working for improving lives of the people irrespective of their gender, caste, color, religion or political views.

VISION

“A Just and Caring Society”

MISSION

“To improve the life quality of vulnerable people through sustainable development and ensure timely humanitarian assistance in need”.

VALUES

Accountability: We look after all our precious resources with the utmost honesty, be they financial, human or material. We will strive at all times to ensure that the use of these resources is transparent and cost effective.

Integrity: We are honest and sincere to the beneficiaries, partners and associates

Excellence: We are committed for excellence in service delivery ensuring quality at each level i.e. inputs, processes, outputs

GOALS & OBJECTIVES

- ▶ To increase access to the quality and timely healthcare services of the demographically remote and economically challenged communities, provide nutritional support & awareness, maternal and child health care and, enhance awareness among society to adopt prevention measures against communicable and non-communicable diseases to ensure general health and fitness.
- ▶ To play a role for increased community resilience and reduced disaster risks, reach out timely to help and support people in emergencies as well as, contribute in early recovery and rehabilitation after catastrophes.
- ▶ To promote basic literacy among the ultra-poor and the most marginalized children and women in the society and; to contribute in ensuring primary level schooling and; to ensure basic amenities of life for all boys and girls particularly but not limited to the children in slums, and the orphans ensuring their basic rights.
- ▶ To increase access of marginalized and vulnerable communities in rural and semi-rural areas to clean and safe drinking water and; to inculcate basic hygiene and sanitation knowledge and practices among vulnerable groups.
- ▶ To provide sustainable livelihood opportunities to the vulnerable and less fortunate through Technical and Vocational Education & Training as well as assistance in achieving sustainable agricultural produce for small farmers.
- ▶ Along with the distribution of Ramadan food packages and Qurbani meat, to be active in providing basic food items to the most deserving and needy families even in other days as well.

WORKING AREAS

(CURRENT & PAST)

THEMATIC AREAS

- Health & Nutrition
- Education
- Water Sanitation & Hygiene
- Humanitarian Response
- Food Security & Livelihood
- Seasonal Support

HEALTH

Access to healthcare (prevention and cure) remains a challenge in Pakistan. The burden of noncommunicable diseases alone is responsible for 50.5% of all deaths in the country. Women and children suffer more due to the dearth of quality healthcare services especially in remote rural areas. Many women die from preventable complications during pregnancy & delivery, and newborn care is unavailable in many parts of the country. RIR strives to increase access to the quality and timely healthcare services of the demographically remote and economically challenged communities, through:

- ▶ Outpatient Consultation & Diagnostic Services
- ▶ Maternal, Newborn & Child Health Services
- ▶ Ambulance Services
- ▶ Addressing Malnutrition
- ▶ Health coverage to marginalized, women, elderly and People with Disabilities
- ▶ Rehabilitation & Construction of Health Infrastructure
- ▶ Training of Traditional Birth Attendants (TBAs)
- ▶ Community Mobilization & Organization
- ▶ Health Awareness & Education
- ▶ Health Screening & Medical Camps

These services are provided through two regional Healthcare Centers named “RAHMA Hospitals”.

1. RAHMA Hospital Janpur, Rahim Yar Khan &
2. RAHMA Hospital Khuiratta, Kotli, AJK

RAHMA HOSPITAL JANPUR

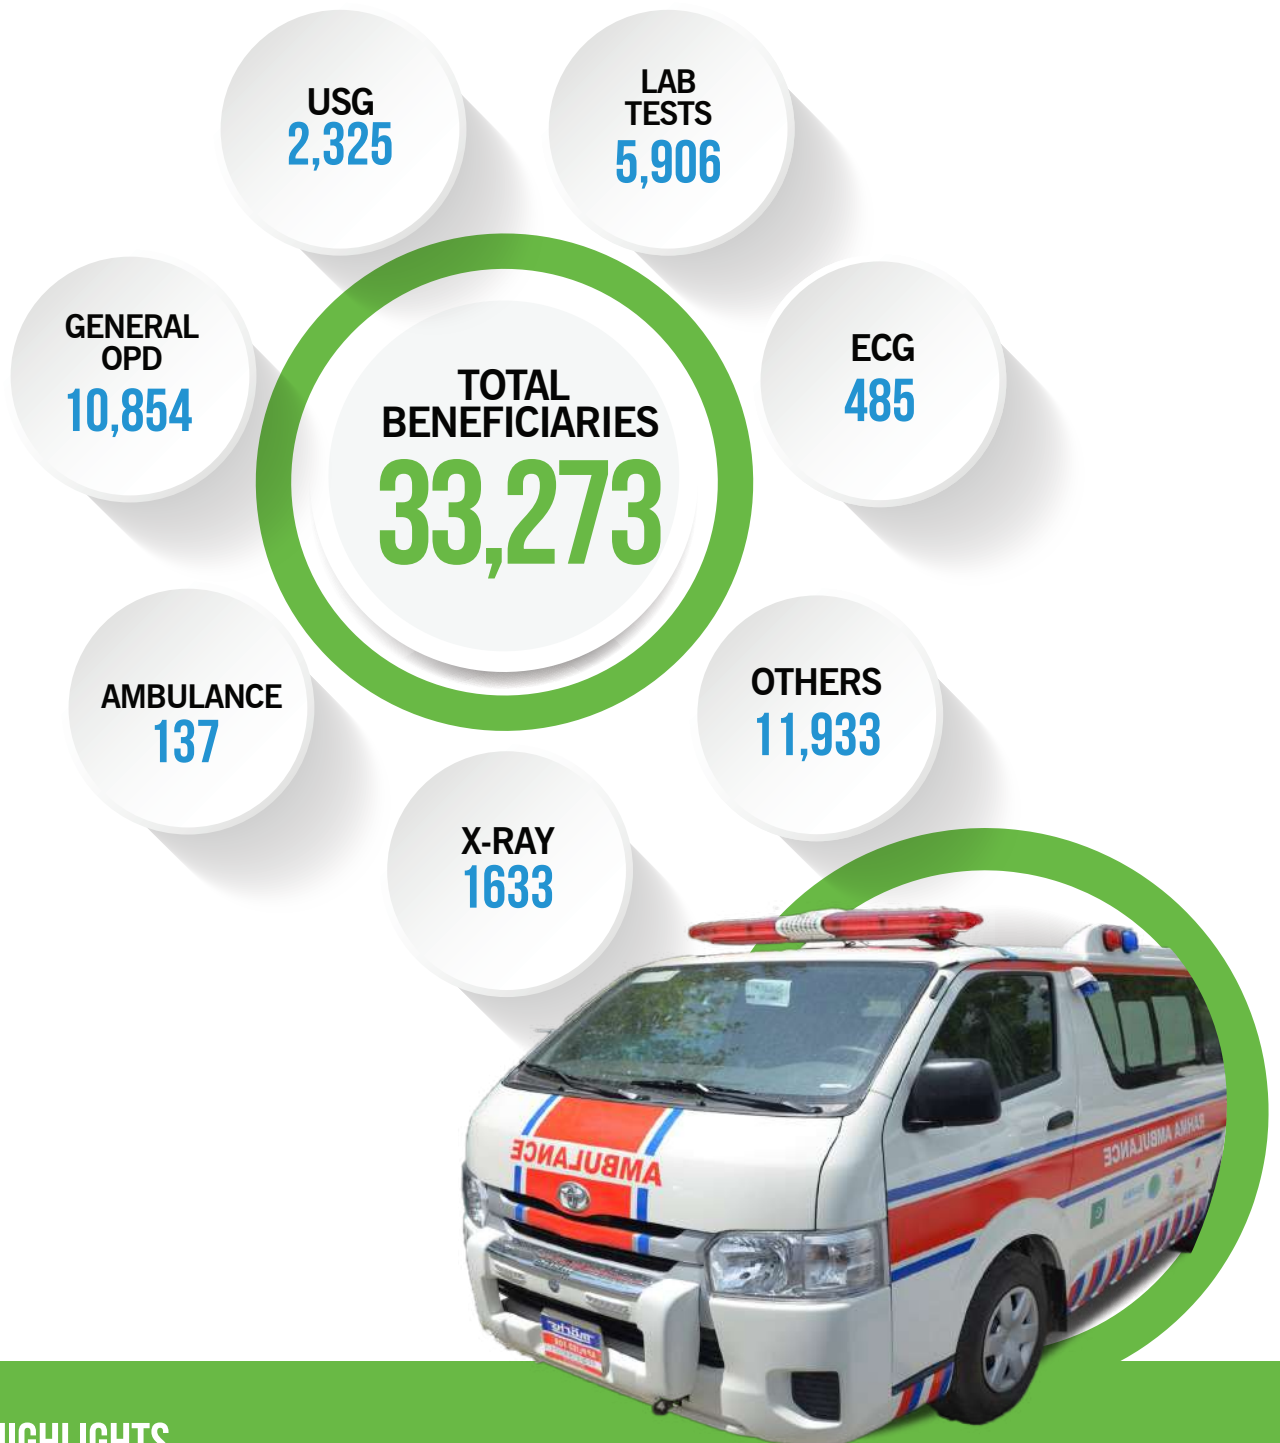

RAHMA Hospital Janpur founded in 2014 to facilitate the local population with accessible semi tertiary healthcare facilities. Since its inception, the hospital is serving approximately one million people in 14 Union Councils of Tehsil Liaqatpur.

PROVIDED SERVICES:

- ▶ Consultation (OPD & Emergency)
- ▶ Laboratory tests
- ▶ Radiology (Digital X-ray & Ultrasonography)
- ▶ Pharmacy
- ▶ Ambulance Service
- ▶ Labor room Services
- ▶ Separate MNCH Center (in progress)

2020 HIGHLIGHTS

OTHER HIGHLIGHTS

- An awareness session organized for Imams of Masjids on how they can play a role to prevent the spread of the COVID-19 pandemic.
- As per an agreement, 101 employees of Rahim Yar Khan Sugar Mills were provided with laboratory/diagnostic services.
- Among others, 50 officers from Motorway Police got scanned for Hepatitis B & C through an organized camp.
- Free medical camps were arranged including one for the patients of Diabetes mellitus on World Diabetes Day.
- Two community awareness sessions were arranged on women health.

RAHMA HOSPITAL KHUIRATTA

KOTLI (AJK)

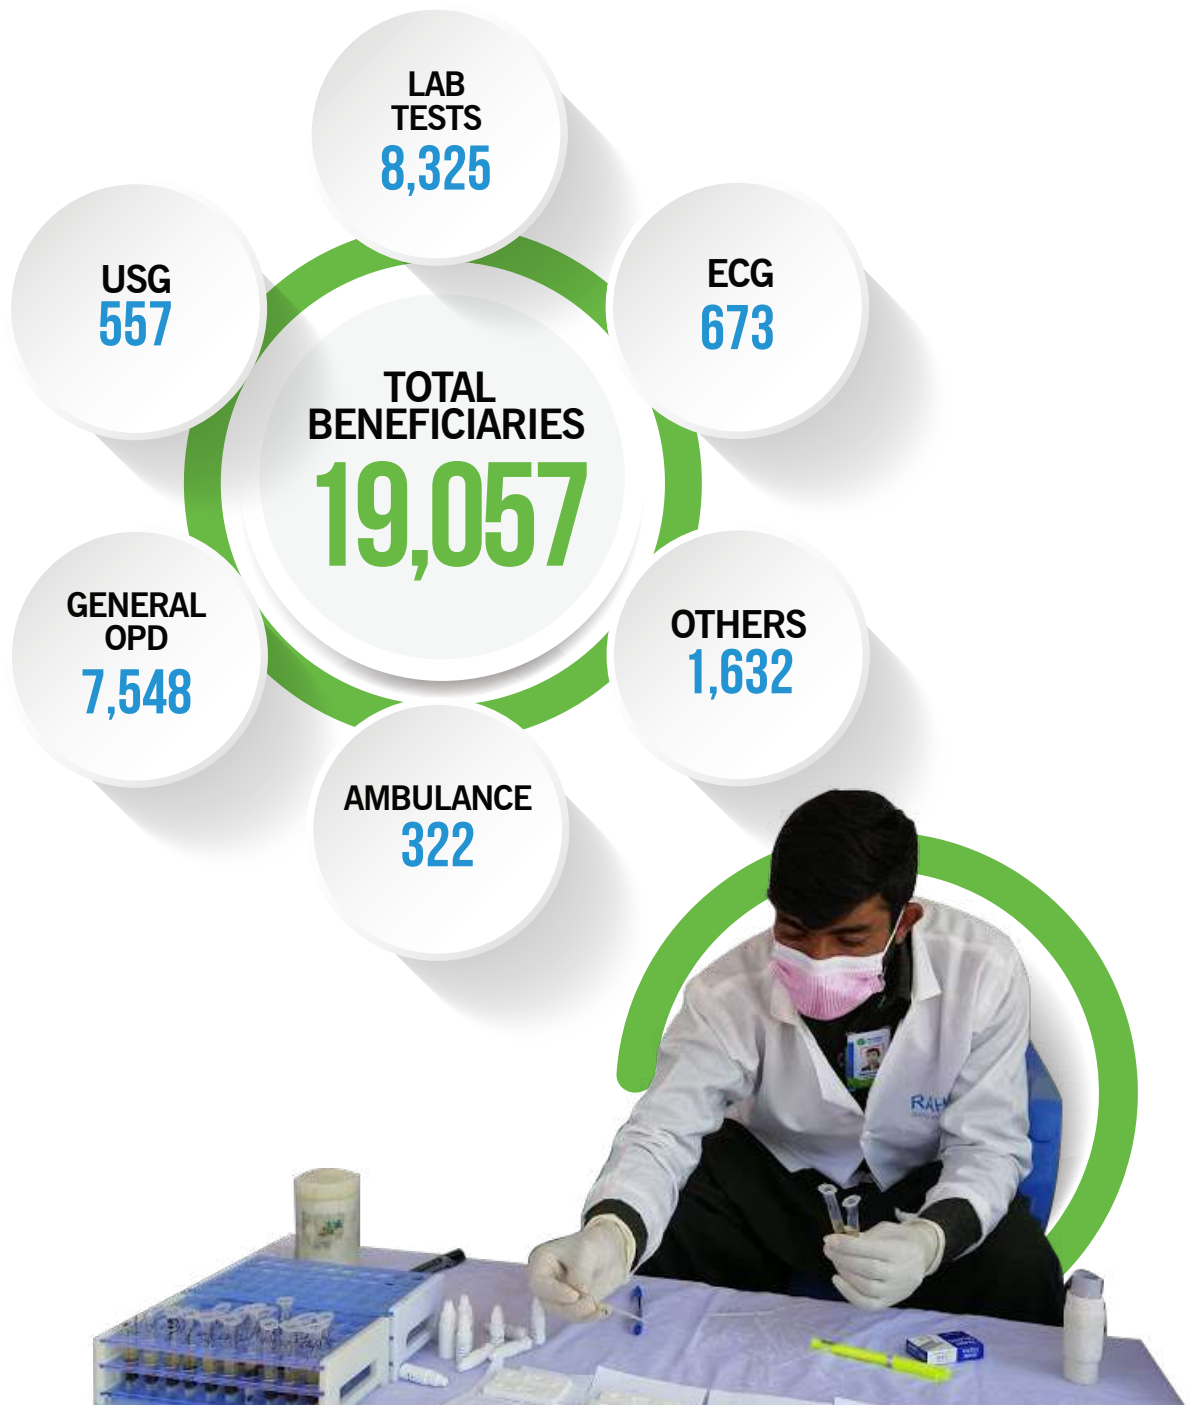

RAHMA Hospital Khuiratta has been working as semi tertiary hospital since 2009-10. It has been providing free and highly subsidized health care services to the less fortunate community of Khuiratta. The hospital serves an estimated 160,000 population in five Union Councils of Tehsil Khuiratta. Kotli, Azad Kashmir.

PROVIDED SERVICES:

- ▶ Consultation (OPD & Emergency)
- ▶ Laboratory tests
- ▶ Ultrasonography
- ▶ Pharmacy
- ▶ Ambulance Service
- ▶ Labor room

2020 HIGHLIGHTS

OTHER HIGHLIGHTS

- 6775 patients received free of cost medicines through Sahulat Cards (sponsored)
- Two screening camps for Hepatitis B & C were arranged
- several community awareness campaigns on COVID-19 launched using different platforms and media including, press clubs, newspapers and news channels
- Community awareness session on mother and child health conducted
- Different awareness-raising sessions conducted for Khateebis of Masajids and Imam Bargahs, highlighting their role in the prevention of COVID-19

EDUCATION

Primary education coverage is increasing in Pakistan; however, access issues still need to be addressed. Government statistics indicate that an estimated 22.6 million children, aged 5-16, are out-of-school (44% of all children in this age group).

Pakistan has the second-highest number of Out-Of-School Children (OOSC) at the primary school level in South Asia, over half of whom are girls. A significant number of OOSC belongs to the poorest, marginalized and, socially excluded groups living in self-made tarpaulin huts in slums. Approximately, there are around 15,000 children in Rawalpindi/Islamabad who belong to such group and, not enrolled in schools. RAHMA started providing education to such children in 2012. Initially, it opened a school within a slum, near Rawalpindi Railway station, in a small hut. Later on, it succeeded in constructing the very first school exclusively for such marginalized children. The school inaugurated in 2019.

RAHMA MODEL SCHOOL, RAWAT, RAWALPINDI

RAHMA Model School building completed finally and inaugurated in March 2019. During its first year, admissions (playgroup to class III) remained up to 55-60 while, in 2020, the figure turned more than doubled despite COVID 19 crises. Most of the days, the school remained closed in compliance with the lockdown policy of the government. However, teachers kept visiting Basti (a provisional set up in the slum) to teach the children when school was closed.

2020 HIGHLIGHTS

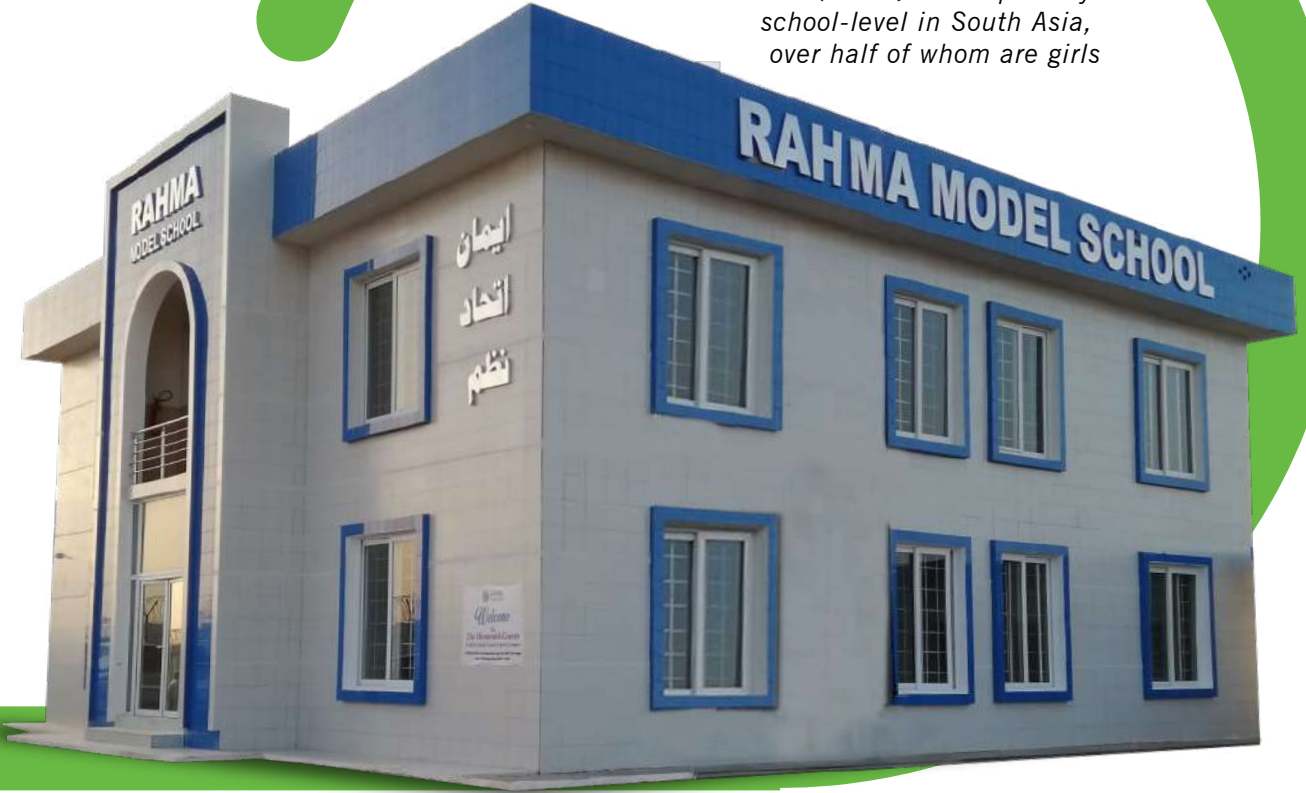

After a long closure, school opened on 30th September, 2020. During open days, following saliant activities took place:

- Final term examination conducted
- Medical camp arranged for children hiring a qualified physician
- Student volunteers from Foundation University organized activities with children to promote personal hygiene among them
- Student volunteers from Fatima Jinnah University teamed up with the staff in social mobilization and enrollment campaigns.
- Mandatory precautionary measures ensured to prevent COVID-19. Government health Inspectors visited and inspected the hygienic standard and issued compliance certificate
- Students participated in Eid card making competition organized by Tameer e Shakhsiat forum and got certificates
- Children provided with free of cost books, stationery, uniform, shoes and school bags

The school was again closed from 28th November 2020 onwards. Teachers assign homework to students to ensure they are firmly intact with learning activities. Total enrolled students are 129 at the end of the year.

Pakistan has the second-highest number of out-of school children (OOSC) at the primary school-level in South Asia, over half of whom are girls

RAHMA EDUCATION & SPORTS COMPLEX

Girls' education is the most persistent and widely felt need of the rural areas in Rahim Yar Khan. Currently, there is no facility in the vicinity of Gul Muhammad Langah providing quality education to girls. They have to get admission to boys' school if the parents allowed them. Consequently, the majority of the girls left behind in education. Education & Sports Complex, an initiative by RAHMA, will not bridge this gap only but also help to nurture healthy minds through sports activities. RAHMA education and sports complex consists of two buildings: One is for the school and the other a residential block for the staff. The building for school comprises seven large-sized classrooms, a big hall, one staff room, two offices and eight washrooms. In the residential building, there are six rooms along with washing and two lounges. The school building also contains a guard room and a canteen. The total covered area of the complex estimates 9,000 square feet. Approximately 6200 square meter of land is open for playgrounds, parking and further extension of buildings. Until the close of the year, all construction and finishing work of the buildings with necessary fixtures has completed except two sports rooms, of 15 X 20 size, is in progress expected to be finished in January next year. Once it gets completed in all aspects will be inaugurated.

ACTIVITY SPONSORED BY ISLAMIC DEVELOPMENT BANK

RAHMA Islamic Relief collaborating with the Department of Education, Government of AJ&K and, Islamic Development Bank, provided books to 250 students (Playgroup to class 8th) at Government Schools of Union Council Seri and Khore, Kotli, Azad Kashmir. Besides distributing books both schools also provided with the necessary furniture for classrooms.

WASH

According to reliable reports, 16 million people in the country do not have access to clean drinking water, while 68 million are without adequate sanitation facilities.

The goal is to provide pure and clean drinking water to those poor peoples who have to drink impure water and live far from available water sources. They travel and expense a lot to fetch water for their households use. For years RAHMA has been making pure and clean drinking water accessible to those who do not access it and thus are vulnerable to water-borne diseases.

In 2020, the Installation of 39 Ultra and RO water filtrations plants completed. They spread around 24 Union Councils (UCs) of Tehsil Liaquatpur, district Rahim Yar Khan, Punjab. Likewise, two water wells and 24 hand pumps completed in Taluka/Tehsil Diplo, District Tharparkar, Sindh, in 2020.

2020- HIGHLIGHTS

THARPARKAR, SINDH

HANDWASHING FACILITIES AT SHELTER HOMES

'Panaah Gahs' depict Prime Minister Pakistan's philosophy of affection and care towards the unprivileged public of the country. It is one of the key social welfare initiatives of the PTI-led government.

Mandi More and Tarlai Panaah Gahs in Islamabad accommodate approximately 1,000 to 1,500 people daily. Administration provides them free night stay along with food and hygiene facilities. Due to the massive number of people visiting, these two shelter homes fell short of handwashing facilities. At the request of the focal person to the Prime Minister, RAHMA installed washing facilities in these two shelter homes.

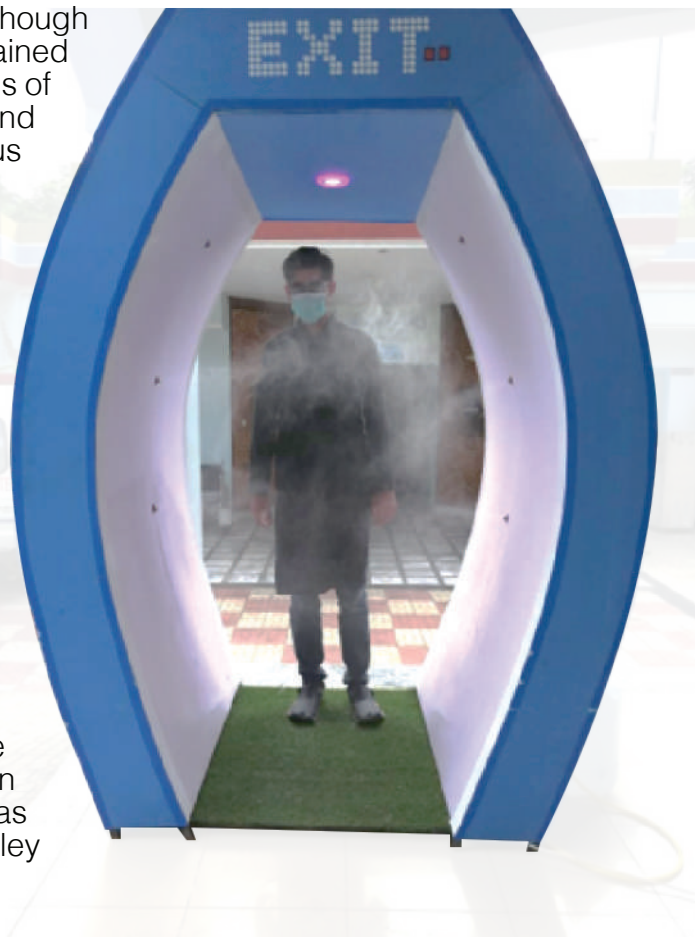

COVID- 19 RESPONSE

A) FOOD PACKAGES

Pakistan faced challenging economic crises because of the Covid-19 pandemic in the last year. Though compared to other countries, life loss remained less yet it impacted livelihoods heavily. Millions of jobs are feared to have lost in the initial and second round of the novel coronavirus outbreak.

The Pakistanis who suffered the most from the economic impact of the outbreak on lives and livelihoods were primarily the country's daily wage workers and urban slum dwellers. These are the people who are the only bread earners for their families. Due to lockdown, they faced the worst situation as they had no wage-earning opportunity out of the work as almost all activities were closed and, people were staying at their homes. During this worst situation, RAHMA Islamic Relief was there for the timely help. We launched a very successful emergency food campaign for such most affected daily wagers. RAHMA staff managed to provide food ration to nearly 2000 such families in Tehsil Liaquatpur, Rahim Yar Khan, Slum Areas in Rawalpindi, Khuiratta AJK and, Kaghan Valley KPK during the lockdown.

LOCATIONS

(where food packages distributed)

1,727

Total (in 4 districts)

B) INFECTION CONTROL SPRAY CAMPAIGNS

During peak times of 1st coronavirus wave, RAHMA started fumigation spray campaign. The most populous places in Rawalpindi, Rahim Yar Khan (Punjab), Islamabad and district Kotli (AJK) identified. The mixture of spray contained prescribed quantities of sodium carbonate, liquid bleach, Dettol, and Spirit in the water added with a little Fragrances. 69 public and other places including Mosques, Darbaars, Truck addas, BHUs, markets, banks, post offices, THQs, BHUs, police stations, petrol pumps, courts, bar councils, schools and colleges as well as government's Ehsaas Cash Centres disinfected. The campaign had a direct positive impact on more than 20,000 vulnerable people.

C) OTHERS

Besides providing food and infection control spray, other activities included medical support at the primary level and referrals for advanced treatment, mass awareness campaigns and, patients counselling.

CONTRIBUTION IN CLEAN GREEN PAKISTAN

Clean Green Pakistan (CGP) envisions a people-led movement aiming to bring behavioural change among the public to achieve a sustainable and safe environment for the country. Environmental sustainability is pivotal to meet the development goals, especially poverty eradication and employment opportunities. Pakistan has only 5% forest land as opposed to the internationally set standard of 25%. For an increased forest area, the plantation has included as a critical component in CGP. The program plans to be executed in 100 districts by the Ministry of Climate Change and the Wildlife Department. RAHMA Islamic Relief Pakistan took part in this Action for Climate Friendly and Disaster Resilient Environment through Clean Green Pakistan Program. In the first phase, we contributed to planting 13,100 plants in different locations of Lahore and DG Khan.

SEASONAL PROJECTS

1765 families facilitated through Qurbani meat. The activity provided the opportunity to the beneficiaries to enjoy the happy moments of the auspicious occasion of Eid-ul-Adha, especially to the vulnerable women and children providing them meat in a substantial quantity.

MISCELLANEOUS

A) VISITS, MEETINGS, TRAININGS

Ambassador of Pakistan to Norway, Mr. Zaheer Pervaiz Khan visited the head office

Chairman Helping Humanity Denmark, Mr. Saqib Tasneem along with his team visited RAHMA office, children at the slum and RAHMA Model School in Rawat

A one-day training session on workplace ethics and communication skills organized for the staff

Chairman, Mr. Saghir Qamar meets CEO PPAF, Mr. Qazi Azmat Isa

Visit of Mr. Nauman Arshaad and Mr. Yasir, members of RAHMA Islamic Relief Fund Norway

The yearly progress review meeting held in the head office

Mr. Umer Farooq from Union of NGOs of the Islamic World (UNIW) visiting head office

The founder of Rahma Islamic Relief, Mr. Munir Ahmed Malik visited Rahma Model School and water filtration plants

A group of people (philanthropists) from Norway and Canada visited Rahma head office and the school.

A grand meeting during the visit of Mr. Munir Ahmed Malik with the local community and stakeholders. Mr. Makhdoom Syed Ahmed Alam Anwar (Ex-Federal Minister) is also present

B) CERTIFICATES & APPRECIATIONS

President Co-ordination Council for NGOs & District Social Welfare Officer, Kotli, Government of AJK. awarded certificate of appreciation to the organization for the commendable role it played in COVID-19 pandemic crises

Pakistan Centre for Philanthropy certified the organization for the second term, valid up to May, 2023

Ministry of Foreign Affairs, Government of Pakistan, acknowledged the role of the founder of RAHMA, Mr. Malik Munir Ahmed. The ministry appreciated his role during COVID-19 crises in Pakistan as well as his overall social work in the country

MEDIA COVERAGE

In consequence Street schools struggle with Covid-19

As the education system goes digital, there is a lot at stake for Rawalpindi's homeless youth.

ZULFIQAR BANG

The Rahma Islamic School is a primary school unlike any other in Rawalpindi. Built on Mullah Lal, it is perhaps the city's only institute which caters specifically to students who are homeless or vulnerably housed in the nearby slums of Kawalamandi Railway Road. However, as schools go digital and coronavirus-induced closures, a lot has been put on the line for the city's homeless youth.

A majority of the school's students, move to the streets early on in their lives to augment their family's income. Their parents, who have little to no education, are either unemployed or employed as unskilled labourers and thus unable to provide for the family. In such situations, these children have come to depend on the school for not only their education but also for food, shelter and wellbeing. It is feared, if the current circumstances persist, the ramifications of the lockdown may haunt the students for a lifetime.

"Gaining the trust of the slum dwellers was an uphill battle. They thought the school would raise their children off the streets and prevent them from begging, which would affect their livelihood. So these were major protests against it. We started with just five students, but over the past eight years, have been able to win the trust of the parents and now cater to over sixty pupils. Education here is entirely free. We provide the students with free lunch, uniforms, transport and books," said a source associated with the school.

While educational institutes around the country continue to digitalise education in an attempt

unable to provide for the family. In such situations, these children have come to depend on the school for not only their education but also for food, shelter and wellbeing. It is feared, if the current circumstances persist, the ramifications of the lockdown may haunt the students for a lifetime.

"Gaining the trust of the slum dwellers was an uphill battle. They thought the school would raise their children off the streets and prevent them from begging, which would affect their livelihood. So these were major protests against it. We started with just five students, but over the past eight years, have been able to win the trust of the parents and now cater to over sixty pupils. Education here is entirely free. We provide the students with free lunch, uniforms, transport and books," said a source associated with the school.

While educational institutes around the country continue to digitalise education in an attempt

to the new normal, it is no surprise that the option is simply not there for welfare schools like Rahma.

"The students here cannot afford an internet connection, let alone access to tablets and computers. We cannot go digital like other schools, but we are still trying as much as we can to keep these kids in school. We have already given books and homework to the students and our teachers inspect their work once a week in their tents. That's as much as we can do for now, but our goal is to keep these kids away from begging and offer them a second lease on life through education," the source informed.

According to Jabbar, father of a student, he had spent his life begging on the streets under the scorching sun and never had access to opportunities like children do. "I never had a chance to be educated myself, but I got no lessons so much about the world from my children who are studying now. I was opposed to the idea of sending them to school at first, but my perspective changed when I saw the facilities they were provided with," the father told The Express Tribune. "I was hoping my son could study further and get a technical education someday so that he never has to beg like his father but the school's shut down now and I don't know what the future holds," he lamented.

"This school has been like a second home for me," said Saaduddin, a student at the Rahma School. For many like him, the institution has acted as a safe haven away from the rampages of the street life for the past decade.

There is a mosque which offers shelter no-questions-asked, a water pump for clean drinking water, access to free food and more than anything, the hope of building a better life.

However, all of that has been put in jeopardy as pandemic has defunct the education system and future looks bleak for students like Saaduddin in a world gone digital.

FEW STORIES FROM THE FIELD

1) FROM RAHMA MODEL SCHOOL, RAWAT

Rahma Model School (RMS) aims to provide holistic development which extends beyond the classroom. The mission is to provide quality education to everyone, irrespective of socio-economic background. RMS is a ray of hope for ambitious children, enthusiastic about going to school but couldn't afford it due to financial issues.

Shakeel Javed enrolled on school four years back at the age of 6 and is currently studying in Grade 1. His father was a drug addict who used to force him to become a child beggar. Shakeel has always been disliking to be. Whenever he would look at students going to school, he would fantasize about going along with them. His dream came true when he joined Rahma Model School. Initially, it was even hard for him to hold a pen correctly. Later with his enthusiasm and efforts of the teachers now he is considered a good writer among his classmates. Shakeel is a very present-minded student and is also involved in extracurricular activities. He has set the example that if you are ambitious towards studies, even with limited resources, you can prove yourself.

As my husband is a drug-addicted one, every responsibility of the household comes on my shoulder. I never wanted Shakeel to be involved in begging. When this school got started, despite all resistance from my husband, I got Shakeel enrolled. I think I made the right decision at that time. I am happy that the school is providing books, uniform, shoes even a pick and drop facility as I cannot bear these expenses. I am also happy with the teachers as they are putting in efforts to educate my son. I am grateful to them.

(Ms. Hameeda, Mother of Shakeel)

No doubt, giving quality education to children is a dream of every parent. They want to see their children not only educated but also get a standing place in this society. However, when they get unbearable financial pressure, their ultimate priority is to make both ends meet in one way or the other. Education then becomes a secondary choice. Rahma strives to help such families in gaining education for their children without making them financially burdensome.

2) WATER PROJECTS, THARPARKAR

Venjuraj lives in village Khenrohi, Taluka Diplo, Tharparkar. He is a little educated. One day he called on the phone to the Rehma team and requested a meeting. Upon meeting, he briefed them about their hardships relating to water access. The staff learned how far the women in that community had to travel outside the village to fetch water.

He had heard about the work done by Rahma in Tharparkar. He requested solving the issue of water for the community through the installation of a hand pump. He argued Rahma team could themselves verify their hardship by visiting and analyzing their problem. Rahma team asked him to write an application formally and assured him that they would try their best to solve the problem.

In the next few days, the team visited Khenrohi village to meet the community. A meeting called on in which all the villagers participated. The field staff met them, analyzed and verified their need. Then together with the village community, they visited the place where the community was agreed to install a water hand pump. Venjuraj was so excited about finding the team there.

The team promised the community that as soon there would be an opportunity for a water project, they would be served on a priority basis so that their hardship could come to an end as early as possible.

Exactly after ten days, Rahma found a donation for a water project. The team decided to install a water pump for Venjuraj's community. The staff visited Khenrohi village and told Venjuraj the news. Venjuraj and the community screamed joyfully. The team appointed Venjuraj as monitor/supervisor of the installation work. Within ten days, work successfully got completed. A little inauguration ceremony took place then. The team always shares this story joyfully as how Rahma Islamic Relief contributed in bringing smiles to the face of Venjuraj and the community of Khenrohi.

3) FROM RAHMA HOSPITAL JANPUR, RAHIM YAR KHAN

Muhammad Ishaq, aged sixty, resides in Allahabad. He was presented to RAHMA Hospital Janpur on 15th June 2020 with a foul-smelling ulcer (wound) on the inner side of the right foot adjacent to the ankle. It was a dire complication of diabetes mellitus in which sometimes complete amputation of the foot or even whole limb is advised.

He was a known case of Diabetes mellitus type 2 and high blood pressure for almost 15 years. Both diseases were not well controlled due to poor drug compliance.

The wound was quite deep with a size of 6cm×7 cm. There was foul-smell, blood-stained pus fully loaded with maggots- fly larvae hatch from eggs laid by adult female flies.

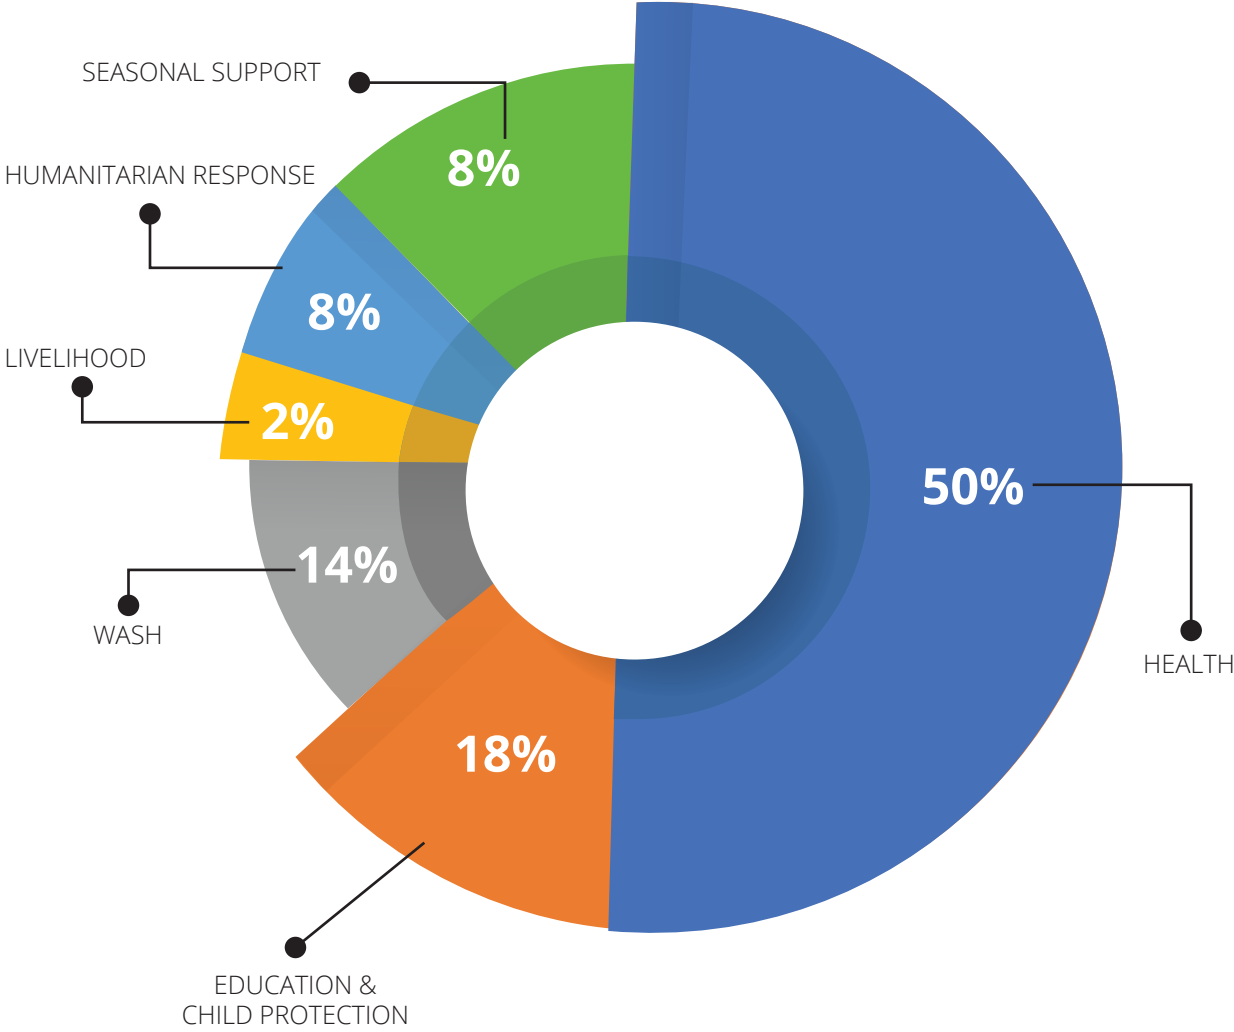

In wound management, the healing of the ulcer was possible only after making sure the proper anti-diabetic drug administration and its compliance to achieve optimal sugar levels.

In wound management, we cleared the wound, removed the maggots, daily saline irrigated to provide a clean environment, did debridement when necessary and gave antibiotics therapy. In 2-3 days, we controlled the sugar and blood pressure very well. The efforts resulted in complete healing within almost two weeks.

INDEPENDENT AUDITOR'S REPORT
TO THE BOARD OF TRUSTEES – RAHMA ISLAMIC RELIEF
REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

We have audited the Financial Statements of **RAHMA ISLAMIC RELIEF** which comprise the balance sheet as at **June 30, 2020** and income & expenditure account, cash flow statement and statement of changes in fund for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, (or give a true and fair view of) the balance sheet of **RAHMA ISLAMIC RELIEF** as at June 30, 2020 for the year then ended in accordance with approved accounting and reporting standards as applicable in Pakistan.

We conducted our audit in accordance with the International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Organisation in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management is responsible for the preparation, and fair presentation of the financial statements in accordance with the approved accounting and reporting standards as applicable in Pakistan, and for such internal control as management deems necessary, to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the organisation's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the organisation's or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the organisation's financial reporting process.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

THE POWER OF BEING UNDERSTOOD
AUDIT | TAX | CONSULTING

ENJHR

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
